WHAT IS XIT?

XIT is a blockchain-oriented digital asset ecosystem designed around token participation, staking, community incentives and future digital utilities.

The ecosystem brings together:

XIT Token

Community Development

Staking / ROI participation

NFT initiatives

Direct Referral Income

Liquidity

Level Income

Treasury

Team Rewards

Ecosystem Development

VISION

To develop a transparent and community-powered digital ecosystem where blockchain technology, token utility and community participation work together.

MISSION

XIT aims to:

- ✓ Build a disciplined token economy
- ✓ Encourage community participation
- ✓ Develop practical token utility
- ✓ Create structured reward programs
- ✓ Support ecosystem development
- ✓ Expand through technology and partnerships

QUALIFICATION REFERENCE

The handwritten XIT plan indicates a **100 XIT** staking reference.

• IMPORTANT •

The final smart contract/platform rules must clearly define:

- ✓ Principal treatment
- ✓ ROI calculation
- ✓ Withdrawal mechanism
- ✓ Maximum payout
- ✓ Cycle completion
- ✓ Lock/withdrawal conditions

The stated ROI percentages are program parameters and **not guaranteed investment returns**

XIT COMMUNITY INCOME

01

DIRECT REFERRAL INCOME

Eligible participants can receive **5%** on qualifying direct referral/business volume.

5%

FORMULA

Direct Income = Qualifying Direct Business × 5%

EXAMPLE

1,000 XIT qualifying direct business
5% = 50 XIT

02

LEVEL INCOME

10% TOTAL

Income generated from qualifying team business across the defined network levels.

SOURCE-SPECIFIED LEVEL RATES

Level	Rate
L1	5.00%
L2	2.50%
L3	1.25%
L4	1.00% – 0.50%
L5 onward	Final level matrix
Overall Level Framework	10%

Important: The supplied handwritten source does not clearly establish every individual percentage through all deeper levels, so the remaining rates should be inserted only after the final compensation matrix is approved.
